Dear Committee,

The proposed wall & stair artwork for the undercrossing looks intriguing and cool. However, the "box" the artist proposes for the upper concourse seems unappealing. We are surrounded by so many boxes in the urban environment already, having another box (a towering one at 12'), even one made with interesting materials, seems like not a great addition. I'm unsure of how easily one could modify such a design, to break up the box, or do a similar surface treatment to an obelisk or arch or other shape, but I think that would be preferable.

Sincerely,

Lada Adamic
