P.O. Box 7540  
Mountain View, CA 94039-7540

To Whom It May Concern:

If the recommended increases pass then the cost of water will have gone up 13.0% in two years, the sewer rate will have risen 14.0% and the trash/recycling/organics will have gone up 10.0%.

Please reconsider these proposed increases in all three areas. I don't need to belabor the point that we are already paying over \$6.00 a gallon for gas and also paying for the increased grocery costs due to the rise in gasoline prices.

If there's any way to keep the utility costs down please do so.

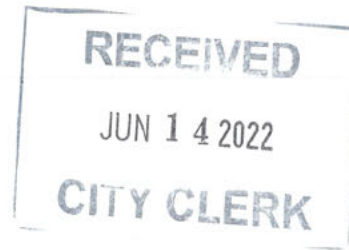

Sincerely,

A handwritten signature in cursive script that reads "John M. Canata".

Re: Increase in Increase in water/sewer/trash fees

6/8/2022

Honorable city council members.

I am the owner of [REDACTED] a fourplex in Mountain View.

I received a letter dated 5/13/2022 to increase fees for **Water 12%, Serwer 8% and trash/recycling 6%**

When you are making these decisions, please also be FAIR in allowing the yearly rent increase accordingly. You cannot make a 12% increase in water bill when you only allow 2% rent increase.

We now have Statewide rent control which is much fairer to the rental property owners. Please adopt that. On top of these fees and the yearly property tax increase more than your yearly allowance of rent increase, there is a fee for measure V imposed on property owners. When you do not take the above into consideration you are unjustly burdening the property owners not to be able to take care of maintenance and upgrade of their property which will directly affect the tenants as well.

I appreciate your consideration

Respectfully

A handwritten signature in blue ink, appearing to read "Afsoon Shahrddar". The signature is fluid and cursive, with a long horizontal stroke at the end.

RE: Objection to Recommended Utility and Trash/Recycling Rates Increases

Gentlemen,

We are writing this letter to object to the increase in the utility and trash/recycling rates. These increases would adversely affect most, those the lowest earnings and the retired and elderly.

Very truly yours,

Qian Ye

Xinde Zhang

Protest - Hike in Trash / Recycling / ~~water~~ Rates  
organic

Hello,

As a resident of the city of MV, I would like to formally register my disapproval for the proposed hike in rates for Trash / Recycling / organic (eff 7/1/22). No, the current rates are already high enough & with inflation all around us this Agreeses my family even more.

No Rate Hikes
