Member Hicks recused herself from deliberating on the Castro Street Bikeway Feasibility Study's Castro Street/Church Street intersection due to the proximity of her residence to the project location, and exited the Plaza Conference Room at 9:05 p.m.

Chair Kamei and Member Matchak recommended the traffic signal at the intersection of Castro Street and Church Street remain as is. Long-term decisions about the intersection should be considered in the future based on the results of the Downtown Precise Plan and other plans and initiatives affecting Castro Street.

Member Hicks returned to the Plaza Conference Room at 9:15 p.m.

Transportation Planner Whyte, Public Works Director Cameron, and Transportation Manager Lo responded to Committee questions about traffic flow and potential for bike lanes on Hope Street, the Active Transportation Plan timeline, existing trees on Castro Street, and the Downtown Precise Plan timeline.

The Committee would like all modes of transportation and the pedestrian experience to be considered for Castro Street. The Committee also indicated they would like to see more community and business engagement, and more detailed fiscal impact information.
