Following Subcommittee discussion, Housing and Neighborhood Services Manager Wong summarized the direction and input from the Subcommittee:

1. Allow some flexibility to RHC decision-making but any decisions involving the following items would require Council oversight:

- a. Units
- b. Persons
- c. Use of City funds
- d. "Significant" pass-throughs
- e. Suspending the CSFRA

2. Consensus that Mobile Home Rent Stabilization should be done as an ordinance and not in the City Charter, and concurrent or parallel with the 2020 ballot timeline.

3. Have the Rental Housing Committee design a streamlined petition process. The Subcommittee wanted the Council to have oversight of the percentage of the pass through if there was a pass through process. Required improvements, such as soft story retrofits would be eligible for the streamlined petition process. In addition, some Subcommittee members expressed interest in including eligibility for environmentally sustainable improvements and improvements that extended the life of the structure.

Other Subcommittee discussion items included Source of Income discrimination, CSFRA exemptions for single family homes and accessory dwelling units, exceeding Tenant Relocation Assistance Ordinance (TRAO) requirements and the use of CPI or a flat rate for rent increases.
