Good afternoon Council,

I write as a private resident who resides on California Street.

I've noticed that the council's legislative priorities for advocacy at the state level in the area of sustainability revolve around supporting bills that align with our interests. Can we be more vocal in opposing state bills that would harm the environment? Maybe we can work with ABAG to coordinate our advocacy.

Also, are we writing a letter of support for AB 1999, which Assemblymember Berman cosponsored, which would reverse the PG&E rate hikes? The rate increases are regressive and harmful to our residents.

Thanks for your consideration.

All my best,
Nicholas Hargis
