

RE: Appeal of Application for tree removal at 350 Levin Ave.

The application was denied based on the fact that the tree is healthy. However, this wasn't the reason why we asked for the tree removal. We asked to remove the tree because it is close to the house and the tree roots have caused damage to water pipes and flooded to the area underneath the house. We can't remove the roots that are close to the house because that might cause the tree to fall. To avoid additional damage we would like to remove the tree.

Thank you!
