8/29/22

Attached is an analysis of traffic data collected this spring and summer at North Bayshore gateways. It is mercifully short and free of computer-generated statistics, scenarios or abstract performance measurements. I hope it will help you prepare to digest the Fall 2022 Trip Cap Report when that comes out.

Thank you for your attention.

CAUTION: EXTERNAL EMAIL - Ensure you trust this email before clicking on any links or attachments.

Attached are updated versions of the documents sent last night regarding North Bayshore traffic. The text corrects an error in the Shoreline-Rengstorff combination table. The appendix adds an explanatory note to one picture.

In the unlikely event that this caused any inconvenience, I apologize.
