

Collision-risk increasing Bike Lane left from car right turn lane

They encourage cars in their right turn lane to pass along cyclists in the straight-ahead bike lane at much higher speed than without any existing bike lane. top: Plato Alto, Hanover St / Page Mill Rd. bottom, too narrow car lane: Mountain View, California St.

Confusing and dangerous traffic calming methods

High speed curve markings increase collision risk with cars. Sharp metal signs. San Francisco, Presidio, Washington Blvd.
