Deaccessioning Policy or Guidelines

June 8, 2022
Item 7.1

Deaccession is the procedure for the removal of an artwork owned by the City and the determination of its future disposition. Having a deaccession policy allows a careful and impartial evaluation of artwork to avoid the premature removal of artwork.

A deaccession policy makes clear under which conditions art can be removed, and the process and procedures to make that happen.

- Artwork's physical and structural condition poses a threat to public safety.
- Artwork requires excessive maintenance, has faulty design or workmanship, and repair or remedy is impractical or unfeasible.
- Artwork has been damaged and repair or remedy is in gross excess of aesthetic value, or restoration would prove either infeasible or misleading.
- Significant, adverse public reaction to the artwork has occurred for a period of time.
- The artwork is proved to be inauthentic or in violation of laws.

- The artwork has exceeded its expected lifespan at the time of creation.
- No suitable site is available for relocation or exhibition, or significant changes in the use, character or design of the site have occurred which affects the integrity of the artwork.
- The artwork can no longer reside in its original location because the original location is altered due to construction, a change of site usage, or sale of the site.
- A written request from the artist has been received to remove the work from public display.

- Exchange
- Transfer
- Relocation
- Storage
- Destruction / Disposal
