Tree #3 Slated for Removal

20 ft tall Coast Redwood →

Good Candidate for Transplantation

- Tree is still relatively small and other trees would not be impacted.
- Easy access.
- Local tree moving service in Mountain View (Tree Movers on Crittenden Lane).
- Even trees of this size would still sell for thousands of dollars.

Example: Varian property in Palo Alto

Please have the city move
this tree to another location
in San Veron Park before
PG&E work commences.
