Parks and Recreation	1. Stevens Creek Trail Extension	**Youth**	2. Low- and Moderate-Income Home Ownership Strategy
Library	6. Citywide Broadband Network, 7. Smart Water Meters, and 15. City Volunteer Framework	**Bicycle and Pedestrian**	10. Citywide Objective Design Standards

Advisory Body Feedback by Project

The following comments were offered by one or more advisory body members. Items in **BOLD** were expressed by multiple members.

1. Stevens Creek Trail Extension

- **Some feel other projects may better advance the City's mobility and connectivity goals.**
- **Seen as contributing to the City's parks acreage goals.**
- Desire for the project to happen sooner/quicker.
- Suggested prioritization of other corridors over this trail extension.
- Viewed as a linear park; consider if Park in Lieu or Shoreline funds could be used to support the project.
- Recognized for enhancing bike safety and potentially increasing bike commuting while reducing traffic.
- Considered a "jewel" of the community.

2. Low- and Moderate-Income Home Ownership Strategy

- **Concerns about residents leaving due to lack of affordable housing options.**
- Projects 3 (R3 Zoning Update) and 10 (Citywide Design Standards) were identified as critical enablers of this project.
- As an existing project, members would like to prioritize its completion.

3. R3 Zoning Code Update

- **Support for neighborhood-serving retail to improve walkability and bikeability.**
- Desire for zoning changes that reduce street widths and parking requirements.
- Preference for this type of infill housing over large-scale development.
- As an existing initiative, members would like to see it completed.

4. End of Natural Gas Flow

- Be cautious of any pass-through costs that might result from this project.
- Strong support for programs that help meet the City's climate and sustainability goals.

5. Community for All Action Plan

- Concerns raised about potential impacts from federal policy or administrative changes.

6. Citywide Broadband Network

- **Seen as a foundational investment for equitable access to City programs, services, and cultural resources.**

7. Smart Water Meters

- Interest in meters that offer real-time, remote data access for residents.

8. 2026 City Charter Amendment and Revenue Measure

- Desire for Councilmember term limits (suggested 8-year lifetime limit).
- Suggested exploration of a carbon tax as a revenue source aligned with sustainability goals.
- Desire for revenue from a measure to go towards road safety projects.
- Desire for revenue from a measure to go towards art.
- Desire for revenue from a measure to go towards Downtown projects.
- Suggestion to explore increased pay to Council members to support fulltime roles.

9. City Code Clean-Up

10. Citywide Objective Design Standards

- **Support for clear visual guidelines and a shared design vocabulary.**
- Recommendations to incorporate historic preservation, green space, biodiversity, and urban forestry.
- Seen as a tool to streamline review processes and support design professionals.
- Desire to include sidewalk and driveway locations in standards.
- Larger projects should account for bike and pedestrian infrastructure.

11. Autonomous Vehicle (AV) Shuttle Pilot Program

- Skepticism about AVs benefiting pedestrians and cyclists.
- Concerns that the City need not be an early adopter, given lack of industry prioritization.
- Interest in AV shuttles being used to support library access.
- Preference for investing in the existing shuttle program, with expanded routes and better access for students and lower-income residents.
- Concerns about job displacement due to AVs.
- AVs could be an attraction for visitors curious about new technology.

12. Downtown Storefront Activation and Pop-Ups

- **Strong interest in involving artists in activation efforts.**
- **Downtown identified as a vital community hub deserving continued prioritization.**
- **Interest in stronger tools (“sticks”) to encourage property owner participation.**
- Seen as an effective way to boost foot traffic and support the pedestrian mall’s success.

13. Pavement Condition Index (PCI) Increase to 71

- Request for analysis of the long-term trade-offs between investing now versus deferring.
- Question of whether this should be considered ongoing operations rather than a strategic workplan priority.

14. City Policy/Template Updates

- Encouragement to identify organizational efficiencies in on-going work to free up capacity for strategic priorities.

15. City Volunteer Framework

- **Concerns that it is currently too difficult to become a City volunteer.**
- Volunteers seen as critical to civic engagement and City-supported initiatives.
- Emphasis on the risk of losing volunteer contributions if barriers persist.

16. Interim Pickleball Plan

- **Mixed feedback: Some advisory body members want to prioritize this, while others felt we should focus on the work already in progress.**
- Concerns raised about additional pavement associated with new pickleball courts.
