## Current Bylaws

## Recommended Changes

### 2. Article IV—Membership, Section 1: Composition

a. Four members who own property and/or a business in downtown. (Members should represent diverse types of businesses and properties)

Move the Downtown Business Association seat to under the downtown category so there is some separation between the DBA and Chamber of Commerce. This would change the number of seats from four to five. The total number of Downtown Committee seats would remain the same – eleven.

a. Four business-at-large members with one representative each from the Central Business Association (the representative may be the Executive Director), the Chamber of Commerce (the Executive Director, or a business representative outside the downtown), and two businesses not in downtown.

Remove the Downtown Business Association. This would change the number of seats from four to three. The total number of Downtown Committee seats would remain the same – eleven.
