3. STUDY SESSION

3.1 Gatekeeper Process Updates

The purpose of this Study Session was to obtain Council direction on updates to requirements for legislative Gatekeeper projects, including review procedures, streamlined projects, criteria, and community design principles.

Assistant Community Development Director Lindsay Hagan presented the item.

Assistant Community Development Director Amber Blizinski was available for questions.

The following members of the public spoke:

Peter Katz, on behalf of the Mountain View Chamber of Commerce.

(Virtual) Bruce England from Mountain View.

(Virtual) Robert Cox, on behalf of Livable Mountain View.

(Virtual) April Webster from Mountain View.

A majority of the Council indicated support for Gatekeeper Review Process A, and reclassifying net-zero as a

Community Design Principle rather than Qualifying Criteria.

By consensus, the Council indicated support for Project Type A - 100% affordable housing, as Streamlined Gatekeepers, the Community Design Principles, as well as the following modifications to Qualifying Criteria: to add a criteria regarding business retention with rent stabilization; to expand on affordable housing to add affordable housing ownership target; to add a criteria for transportation; to expand on the community facilities criteria to allow Transfer of Development Rights programs that apply to other public schools (not just Los Altos School District); and to add a criteria for historic preservation which could be funding for a structure in a location other than the project site.

By consensus, the Council provided additional direction to staff to: look at renaming the Qualifying Criteria reference to "community benefits" to a different term so as not to confuse the use of community benefits in Precise Plans; to provide more detail and specificity in Qualifying Criteria and Design Principles when preparing the draft Policy (in particular, define public recreational areas, define spot-zoning, community facility should be city managed – either dedicated or leased for \$1, complete streets should mention "complete and green street principles"); and to do more stakeholder/community outreach.

A majority of the Council supported direction to establish two Council Authorization hearings a year, one focused on larger projects and one focused on smaller projects and zoning text amendment projects, and to schedule a review of the updated Gatekeeper process 2 years after implementation.

At 8:20 p.m., the Study Session concluded.
