FISCAL YEAR 2018-19  
RULES FOR SPREADING ASSESSMENT**

Each assessment shall be comprised of two components—one based on land use and the other on parcel area. Approximately, seventy-five percent (75%) of the annual assessment shall be on the basis of land use, while the remaining twenty-five (25%) of the annual assessment shall be on the basis of parcel area. The total of all assessed properties in the District is One Hundred Fifty-Eight Thousand Six Hundred Six Dollars (\$158,606). Therefore, the ratio of total assessment is \$118,606 for land use and \$40,000 for parcel area.

**I. LAND USE COMPONENT**

This component will be based on the total number of off-street parking spaces required by a given land use according to the City of Mountain View Parking Ordinance, Section 36.37.1, Article IV of Chapter 36 of the Mountain View City Code (Appendix A). Vacant buildings will be assessed according to their most recent land use. For properties which have more than one land use, the assessment will be calculated for each land use and then added to get the total assessment for this component.

For Assessment Parcel No. 130, a credit will be given for the land use component to offset services provided to the community. The number of parking spaces assigned to the existing land use on Assessment Parcel No. 130 is zero (0).

The total number of parking spaces required within the district is 5,224. Based on the aforementioned 75 percent ratio and total land use component being \$118,606, the fee per required parking space is \$22.704058.

**II. PARCEL AREA COMPONENT**

This component is based on the parcel area in square footage. In the case of multi-unit residential subdivisions, the area calculated will be on the square footage of the individual unit.

The total parcel area in the district is 955,786 square feet. Based on the aforementioned 25 percent ratio and the total parcel area component being \$40,000, the fee per square foot of parcel area is \$0.0418503.
