

SUBDIVISION CONDITIONS
APPLICATION NO.: 113-13-TM
858 SIERRA VISTA AVENUE

1. **MAP SUBMITTAL:** File a final map for approval and recordation in accordance with the City Code and the California Subdivision Map Act prior to the issuance of any building permit for the property within the subdivision. All existing and proposed easements are to be shown on the map. Submit two black-line copies of the map to the Public Works Department for review together with a current preliminary title report and signed survey calculations. Map check submittals shall be concurrent with improvement plan check submittals.
2. **MAP DOCUMENTS:** Submit a subdivision guarantee, County Tax Collector's letter regarding unpaid taxes or assessments, and subdivision security if there are unpaid taxes or special assessments prior to the approval and recordation of the map.
3. **SOILS REPORT:** Soils and geotechnical reports prepared for the subdivision shall be indicated on the final map. Submit a copy of the report with the final map.
 - A. As required by the State Seismic Hazards Mapping Act, a project site-specific geotechnical investigation shall be conducted by a registered soils/geologist identifying any seismic hazards and recommending mitigation measures to be taken by the project. The applicant, through its registered soils engineer/geologist, shall certify the project complies with the requirements of the State Seismic Hazards Mapping Act.
4. **FINAL MAP APPROVAL:** The final map shall be signed and notarized by the owner and engineer/surveyor and submitted to the Public Works Department with an 8.5"x11" reduction of the map. In order to place the approval of the final map on the agenda for the City Council, all related materials and agreements must be completed, signed, and received by the Public Works Department 40 calendar days prior to the Council meeting. After City Council approval, the City will sign the map and provide a Xerox Mylar copy. The applicant's title company shall have the County Recorder's Office record the original and endorse the Xerox Mylar copy. The endorsed Xerox Mylar copy and PDF shall be returned to the Public Works Department within one week after recording the map.
5. **SUBDIVISION FEES:** Pay all subdivision fees due, including Park Land Dedication Fee (approximately \$15,000 to \$30,000 per unit), in accordance with the rates in effect at the time of payment prior to the approval of the final map. No credits against the Park Land Dedication Fee will be allowed for the private open space and recreational facilities. Provide the most current appraisal or escrow closing statement of the property with the following information to assist the City in determining the current market value of the land: (1) a brief description of the existing use of the property; (2) square footage of the lot; and (3) size and type of each building located on the property at the time the property was acquired.
6. **WATER AND SEWER CAPACITY FEES:** This project may be subject to water and sewer capacity fees. These are new fees being implemented by the City. On April 8, 2014 the City Council authorized the amendment of Chapters 28 and 35 of the City Code requiring development projects pay capacity fees, if applicable, for building permits issued on or after July 1, 2015. The applicant shall pay applicable water and sewer capacity fees as required. An informational handout on these fees can be found on the City's website. The April 8, 2014 Council report can be viewed at the following location:

Contact the Public Works Department at (650) 903-6311 for any questions related to these fees.

7. **STREET EASEMENT DEDICATION:** Dedicate a public street easement to widen Sierra Vista Avenue an additional 5' on the face of the map.
8. **UTILITY EASEMENT AND APPROVALS:** Dedicate utility easements as required by the utility companies and as approved by the Public Works Director. All street and public service easement dedications are to be shown on the final map. The subdivider shall submit two copies of the map to PG&E, AT&T (SBC), and Comcast for their review and determination of easement needs. The public service easement dedications must be approved by the utility companies prior to the approval of the final map.
9. **CC&Rs:** Covenants, Conditions, and Restrictions (CC&Rs) for the homeowners association, together with a completed CC&R checklist, shall be submitted to and approved by the City Attorney's Office and the Community Development Department prior to approval and recordation of the map. The said covenants shall include and stipulate all of the standard provisions which are shown on the attached sheet. The checklist and proposed CC&Rs shall be annotated to show exactly where each of the standard provisions have been incorporated into the CC&R document.
10. **CC&Rs, PARKING PROHIBITION:** Parking shall be prohibited within the common driveways, excluding approved guest parking, as the parking would obstruct the use of the driveway. These parking prohibitions shall be stated within the Covenants, Conditions, and Restrictions (CC&Rs). Submit a copy of the CC&Rs with this provision highlighted to the Public Works Department for review and approval. The common driveway shall be signed and/or striped as "No Parking" or "No Parking -- Fire Lane."
11. **CC&Rs, GARBAGE PICKUP:** The Covenants, Conditions, and Restrictions (CC&Rs) shall include a provision stating that the homeowners are responsible for bringing their garbage cans, totes, and recycling bins to the curb along the public street on garbage collection days. A copy of the CC&Rs with this provision marked or highlighted shall be submitted to the Public Works Department for review and approval.
12. **CC&Rs, PRIVATE UTILITY MAINTENANCE PLAN, AND SANITARY SEWER OVERFLOW PLAN:** The Covenants, Conditions, and Restrictions (CC&Rs) shall include a provision that the homeowners association prepare a private utility maintenance plan for on-site water, sanitary sewer, and storm drainage facilities. The maintenance plan shall include such elements as flushing of the sanitary sewer and storm lines, cleaning of storm drain inlets and grates, and inspection of the water system (including flushing and exercising of valves and blowoffs). The CC&Rs shall also include a provision that the homeowners association prepare a sanitary sewer overflow plan, which includes elements such as 24-hour contact information, response times, confinement, and methods to contain and remediate spills.
13. **PUBLIC AND COMMON IMPROVEMENTS:** Install or reconstruct standard public and private common improvements that are required for the subdivision and as required by Chapters 27 and 28 of the Mountain View City Code. The public improvements on Sierra Vista Avenue include, but are not limited to, new curb, gutter, and sidewalk along the project frontage; new driveway approach; landscaping and irrigation; utility services (water service lines and meters, and sanitary sewer lateral); and storm drain face of curb drain inlet. The on-

site private common improvements include, but are not limited to, driveway and underground utilities.

- a. **IMPROVEMENT AGREEMENT:** The property owner must sign a Public Works Department improvement agreement for the installation of the public and private improvements prior to the approval of the final map. Sign a Public Works Department faithful performance bond (100 percent) and materials/labor bond (100 percent) or provide a cash deposit (100 percent) or provide a letter of credit (150 percent) securing the installation and warranty of the off-site and on-site common improvements in a form approved by the City Attorney's Office. The surety (bond company) must be listed as an acceptable surety on the most current Department of the Treasury's Listing of Approved Sureties on Federal Bonds, Department Circular 570. This list of approved sureties is available through the Internet at <http://www.fms.treas.gov/c570/index.html>. The bond amount must be below the underwriting limitation amount listed on the Department of the Treasury's Listing of Approved Sureties. The surety must be licensed to do business in California. Guidelines for certificates of deposit are available at the Public Works Department.
 - b. **INSURANCE:** Provide a certificate of insurance and endorsement naming the City an additional insured from the entity that will sign the improvement agreement prior to the approval of the final map. The insurance coverage amounts are a minimum of One Million Dollars (\$1,000,000) Commercial General Liability, Automobile Liability, and Workers' Compensation. The insurance requirements are available from the Public Works Department.
14. **PUBLIC IMPROVEMENT PLANS:** Prepare public improvement plans in accordance with Chapter 28 of the City Code, the City's Standard Design Criteria, and the conditions of approval of the subdivision. The plans are to be drawn on 24"x36" sheets at a minimum scale of 1" = 20'. The plans shall be stamped by a registered civil engineer and shall show all public improvements and other applicable work within the public right-of-way. A traffic control plan indicating the work areas, delineators, signs, and other traffic control measures is required for work that impacts traffic on an existing street. Improvement plans (nine sets), construction cost estimate, and copy of the current preliminary title report or property deed must be submitted together as a separate package concurrent with the first submittal of the building plans. The improvement plans must be approved and signed by the Public Works Department. After the plans have been signed by the Public Works Department, 10 black-line sets, one Xerox Mylar (4 mil) set of the plans, and CD with CAD file and PDF must be submitted to the Public Works Department prior to the approval of the final map.
15. **COMMON IMPROVEMENT PLANS:** Prepare on-site common improvement plans consisting of the proposed demolition, fill, grading, retaining walls, drainage, common driveways, common utilities, public utilities, and other applicable improvements in accordance with Chapter 28 of the City Code, the Standard Design Criteria for Common Green and Townhouse-Type Condominiums, and the conditions of approval of the subdivision. The plans are to be drawn on 24"x36" sheets at a minimum scale of 1" = 20'. The improvement plans (nine sets) and completed infrastructure data form must be submitted together as a separate package concurrent with the first submittal of the building plans. The improvement plans must be approved and signed by the Public Works Department. After the improvement plans have been signed by the Public Works Department, 10 black-line sets, one Xerox Mylar (4 mil) set of the plans, and CD with CAD file and PDF must be submitted to the Public Works Department prior to the approval of the final map. Where both public and common improvement plans are required, the plans shall be combined into one set of plans.

16. **INFRASTRUCTURE QUANTITIES:** Submit a completed construction cost estimate form indicating the quantities of the public and common improvements with the submittal of the improvement plans. The construction cost estimate is used to estimate the cost of improvements and to determine the Public Works plan check and inspection fees. The construction cost estimate is to be prepared by the civil engineer preparing the improvement plans and stamped and signed.
17. **UNDERGROUNDING OF OVERHEAD SERVICES:** All new and existing electric, telephone, and cable television services serving the subdivision are to be placed underground (including transformers). The undergrounding of the new and existing electric, telephone, and cable television services are to be completed prior to issuance of a Certificate of Occupancy for any new buildings within the subdivision.
18. **JOINT UTILITY PLANS:** Submit joint utility plans showing the location of the proposed electric, gas, telephone, and cable television conduits and vaults. These plans shall be combined with and made part of the improvement plans. Dedicate public utility easements that are necessary for the common utility on the final map.
19. **UTILITY MAINTENANCE:** On-site water, sanitary sewer, and storm drainage facilities shall be privately maintained. The sanitary sewer lateral is private from the property to the City main.
20. **RETAINING WALL:** Retaining walls shall have a maximum height of 18", unless an exception is granted by the Community Development and Public Works Departments. Retaining walls along the perimeter of the subdivision shall be maintained by the homeowners association. The maintenance of the retaining walls shall be included in the Covenants, Conditions, and Restrictions (CC&Rs). A private easement for the retaining walls shall be shown on the final map.
21. **SURFACE DRAINAGE RELEASE:** Provide a surface stormwater release for the lots and private common driveway that prevents the residential buildings from being flooded in the event the storm drainage system becomes blocked or obstructed.
22. **SURFACE DRAINAGE:** Each residential lot shall be designed to drain toward the public street or private common driveway. The drainage system for the privately owned lots shall be designed such that the drainage system does not cross the common property lines unless an exception is approved by the Public Works Department due to unavoidable circumstances (such as to provide drainage to an existing Heritage tree).
23. **SUBDIVISION AND DESIGN CRITERIA PROVISIONS:** It is the applicant's responsibility to comply with relevant provisions of Chapter 28 of the City Code and with the City's Design Criteria for Common Green Developments and Townhouse-Type Condominiums.
24. **CONSISTENCY WITH OTHER APPROVALS:** This map shall be consistent with all requirements of the Planned Unit Development Permit, Application No. 263-13-PUD. All conditions of approval imposed under that application shall remain in full force and effect and shall be met prior to approval of the final map.
25. **APPROVAL EXPIRATION:** If the map is not completed within twenty-four (24) months from the date of this approval, this map shall expire.
