

To whom it may concern,

 I am the property owner at 1553 Meadow Ln, Mountain View CA, 94040. I'd like to submit an appeal regarding the decision to deny the removal of the heritage tree located in my front yard.

Reasons for removal:

1. The tree has significantly outgrown its area and has caused bad damage to the walkway.
2. The tree is leaning towards to street, which may cause damage to vehicles and pedestrians within the area of the canopy.
3. Because the tree is leaning towards the street and the canopy is unbalanced, we are concerned that trimming the tree won't help. Rather, it will likely fall due to the unbalance
4. It is also a hazard to the house, causing damage to the roof, foundation, water pipes, and sewer systems.

We've consulted a certified arborist and he suggested that the tree should be removed immediately. The report is attached.

We understand that trees are a valued community resource in Mountain View, and they are an important component of the civic infrastructure and part of the City's identity. We will replant trees in the front and back yard for every heritage tree removed.

Below is the basic information about this appeal.

Tree location: 1553 Meadow Ln, Mountain View CA, 94040

Number of trees: 1

Type of tree: Italian Stone Pine

Circumference: 122"

 CA, 94040

Thank you so much for your time and consideration.
