Honorable Mayor & City Council

Please approve on consent December 7, 2021 City Council agenda item 4.9 - California Street (West)Complete Street Improvements Pilot.

This project will finally provide a safer place for people to bike, walk, and drive on California Street. Currently, the four travel lanes result in more speeding, and the narrow door-zone bike lanes don't provide a safe place to bike. This pilot will address both concerns.

Thanks for your public service.

John Brazil

I can't wait to get protected bike lanes on California. It's the most direct route to shopping and movies and could especially benefit kids!
