Subject: 1/24/23 meeting -- questions for Council applicants

If the Council is really interested in doing what would best represent the will of the public -- which it did not do by choosing to appoint a new member rather than hold an election -- I suggest asking each applicant the following:

*Do you, regardless of your personal opinions, agree to (1) oppose any further attempts to weaken the CSFRA; and (2) support enforcement of the Narrow Streets ordinance?*

Also, please consider asking the following:

*Do you feel Google should be granted, for the next thirty years, an expedited approval process for its development proposals which bypasses the City Council?*

*How would you ensure that City staff and consultants are held accountable to the Council and the public?*

*Should pedestrians and bicyclists receive equal benefits from the Active Transportation Plan?*

Thank you for your attention.
