- Questions / Interviews

- RIPA data should be provided online
- RIPA data should be manipulatable
- Data reports should be readable in Mandarin, Russian and Spanish.
- Importance of access to community to interpret data
- RIPA data can inform community members' feeling of safety with the MVPD, inform community aid providers on how to help their clients, identify patterns or problems, and prompt early intervention
- Providing access to printed RIPA data reports will increase the access to community members who may not otherwise review it online.
- Frequent posting of RIPA data will support transparency efforts of the MVPD
- Identifying RIPA data related to discrimination would better identify concerning trends early

- Officer Level RIPA compliance reviews
- Creation of an interactive dashboard displaying RIPA data in a format that is easily viewed on mobile devices
- Quarterly publication of RIPA data in CSV format
- Quarterly publication of the RIPA data in English, Spanish, Russian, and Mandarin for posting on The City's webpage
- Distribution to stakeholders in both an electronic and hard copy format
- Availability of RIPA data upon request at the police station
- Continued opportunities for the MVPD to listen to community voices and look for new and more effective means to make its RIPA data transparent and accessible to the entire community

- Continue to collect RIPA data and the additional data sets
- Ensure continued external RIPA data analysis
- Research and implement a RIPA dashboard
- Publish quarterly RIPA data in English, Spanish, Russian and Mandarin on the City webpage
- Develop the future RIPA data page for the Cities webpage restructuring
- Make quarterly RIPA data available upon request
- Publication of access to RIPA data
- Draft and implement more detailed RIPA policy
