Subject: Heritage Tree Removal at 2485 Hospital Drive

CAUTION: EXTERNAL EMAIL - Ensure you trust this email before clicking on any links or attachments.

It seems some cities value trees, particularly heritage trees, enough to build around them. Of course, it requires more planning and care, but the beauty they contribute to the setting is worth it.

I want to encourage the city of Mountain View and its planners to view development through a different paradigm, one that integrates nature into hardscapes vs viewing it as something troublesome to be removed.

Sincerely,
Cynthia Riordan
