Subject: The Justice for Renters Act on California's November Ballot

To The Mountain View Rental Housing Committee Members,
Edie Keating, Guadalupe Rosas, Alex Brown, Robert Cox, Kevin Ma, Mark Balch

My name is Dru Solari and I would like to speak with you about your endorsement of a measure on the California ballot this coming November, **the Justice for Renters Act**.

I am working with Denny Zane, former Councilmember and Mayor in Santa Monica and founder of Move CA. Back in 1978, he founded of Santa Monicans for Renters' Rights and became campaign manager for the Santa Monica rent control ordinance.

We understand that you may have been a supporter of your community's local rent control ordinance and thus, perhaps you are ready to endorse **the Justice for Renters Act** for all of California. It was drafted by people who care about renters and affordable housing and ending homelessness. The measure will help local cities have greater control over their own local rent control laws to ensure they can be as effective as possible.

We want to win a YES vote this November and your endorsement of the ballot measure would be very helpful. Indeed, if you're ready to endorse now and would prefer forgoing a conversation, we thank you in advance and simply respond to [REDACTED] that you endorse **the Justice for Renters Act** and again, thank you!

Otherwise, can you suggest a time when we might talk?

Attached above, please find the flyer about **the Justice for Renters Act**.

Thank you again and kind regards,

Dru Solari
