

CITY OF MOUNTAIN VIEW RESIDENTIAL PARKING PERMIT (RPP) PROGRAM PETITION FORM

We the undersigned residents understand that a request is being made to the City of Mountain View to initiate a process to implement an RPP Program on our street. Such a program will limit on-street parking to two to three hours. Residents that wish to park for more than two to three hours on the street will need to purchase parking permits from the City. Vehicles displaying valid permits will be exempt from the time-limited parking. We understand that the City requires a petition signed by at least 51 percent of all the households (only one signature per household will be considered) within each block of the proposed RPP area to initiate the process and the proposed area must be at least five contiguous blocks. Our signatures below certify that we support initiating the RPP process.
