RULES FOR SPREADING ASSESSMENT**

Each assessment shall be comprised of two components—one based on land use and the other on parcel area. Approximately, seventy-five percent (75%) of the annual assessment shall be on the basis of land use, while the remaining twenty-five (25%) of the annual assessment shall be on the basis of parcel area. The total of all assessed properties in the District is One Hundred Fifty-Eight Thousand Six Hundred Six Dollars (\$158,606). Therefore, the ratio of total assessment is \$118,606 for land use and \$40,000 for parcel area.

I. LAND USE COMPONENT

This component will be based on the total number of off-street parking spaces required by a given land use according to the City of Mountain View Parking Ordinance, Section 36.37.1, Article IV of Chapter 36 of the Mountain View City Code (Appendix A). Vacant buildings will be assessed according to their most recent land use. For properties which have more than one land use, the assessment will be calculated for each land use and then added to get the total assessment for this component.

For Assessment Parcel No. 130, a credit will be given for the land use component to offset services provided to the community. The number of parking spaces assigned to the existing land use on Assessment Parcel No. 130 is zero (0).

The total number of parking spaces required within the district is 5,213. Based on the aforementioned 75 percent ratio and total land use component being \$118,606, the fee per required parking space is \$22.747602.

II. PARCEL AREA COMPONENT

This component is based on the parcel area in square footage. In the case of multi-unit residential subdivisions, the area calculated will be on the square footage of the individual unit.

The total parcel area in the district is 953,558 square feet. Based on the aforementioned 25 percent ratio and the total parcel area component being \$40,000, the fee per square foot of parcel area is \$0.0419481.

ASSESSMENT SUMMARY

APPENDIX A—OFF STREET PARKING REQUIREMENTS

SEC. A36.37.010. - Purpose.

The purpose of off-street parking and loading standards is to:

- A. Provide sufficient parking, loading and delivery facilities to meet the needs generated by the proposed use;
- B. Provide accessible, attractive, secure, properly lighted and well-maintained and screened off-street parking and loading facilities;
- C. Reduce traffic congestion and hazards;
- D. Encourage the use of alternative modes of transportation by providing for safe, adequate and convenient bicycle and carpool parking;
- E. Protect neighborhoods by providing adequate parking and landscaped buffers;
- F. Ensure access and maneuverability for emergency vehicles.

(Ord. No. 9.96, 9/10/96; Ord. No. 7.07, 9/25/07.)

SEC. A36.37.020. - Applicability.

Every permanent use (including a change of use) and every structure shall have permanently maintained off-street parking areas in compliance with the following provisions.

(Ord. No. 9.96, 9/10/96; Ord. No. 7.07, 9/25/07.)

SEC. A36.37.030. - General parking regulations.

- A. **Expansion of structure, change in use.** When a structure is enlarged or increased in capacity, or when a change in use creates an increase in the required amount of parking, additional parking spaces shall be provided in compliance with the provisions of this section;
- B. **Mixed uses/multiple tenants.** A site or facility proposed for multiple tenants or uses (e.g., a hotel with meeting halls, a building with ground-floor shops and second-floor offices, etc.) shall provide the aggregate number of parking spaces required by Section A36.37.040 (Number of Parking Spaces Required) for each separate use;
- C. **Single-family homes.** For each dwelling in any single-family residential zoning district, a garage or carport shall be provided and permanently maintained for parking;
- D. **Deferral of parking installation.** For nonresidential developments of ten thousand (10,000) square feet or more of gross floor area, the zoning administrator may approve deferral of one or more required off-street parking spaces to a future date. The applicant shall demonstrate, to the satisfaction of the zoning administrator, that the occupant of the subject parcel will not need the required parking spaces and that the area temporarily utilized for landscaping or other aesthetic amenities can, in the future, be used for the required parking spaces. The zoning administrator may impose reasonable conditions, including the recordation of a legal agreement which would provide that the landscaping or other amenity is to be removed by the applicant and the required off-street parking spaces are to be installed if they are needed to serve the use(s) on the subject parcel;
- E. **Adjacent site access.** Applicants for nonresidential developments should be encouraged to provide cross-access to adjacent nonresidential properties for convenience, safety and efficient circulation of motor vehicles. A mutual access agreement should be executed where cross-access is provided;
- F. **Rounding of quantities.** Where the number of required parking spaces results in a fraction of 0.50 or higher, the requirements shall be rounded up to the next whole space. Where the number of required spaces results in a fraction less than 0.50, the requirements shall be rounded down to the next whole space;

- G. **Parking required by precise plans and parking overlay zone.** Parking requirements established in compliance with Section A36.20.040 (Parking overlay zone), or Section 36.62 (Precise Plans) shall supersede the provisions of Section A36.37.040 (Number of parking spaces required);
- H. **No assignment of parking spaces without approval.** Parking spaces in parking lots shall be available to all users of the premises and shall not be assigned or in any way restricted for use except pursuant to an approval by the city as part of the underlying permit or CC&Rs.

(Ord. No. 9.96, 9/10/96; Ord. No. 1/04, 1/13/04; Ord. No. 7.07, 9/25/07; Ord. No. 7.11, § 40, 4/26/11.)

SEC. A36.37.040. - Number of parking spaces required.

Each land use shall provide the minimum number of off-street parking spaces required by this section.

- a. **Uses not listed.** Land uses not specifically listed by the following subsection (b) of this section shall provide parking as required by the zoning administrator. In determining appropriate off-street parking requirements, the zoning administrator shall use the requirements of subsection (b) of this section as a general guide in determining the minimum number of off-street parking spaces necessary to avoid undue interference with public use of streets and alleys.
- b. **Parking requirements by land use.** The following minimum number of parking spaces shall be provided for each use:
