

**SUMMARY OF SUPPORT FOR BASIC NEEDS –  
OTHER BASIC SERVICES\***

The City continues to provide basic services that will continue to be funded through the General Non-Operating Fund for which Federal Emergency Management Agency (FEMA) reimbursement will be requested. A short summary (not all-inclusive) is provided here for context with no Council action required. These services include the hygiene stations (portable restrooms with hand wash stations) and mobile shower services at the Community Services Agency (CSA). These temporary services have been extended through June 2021. Funding for these services is coming from a combination of the City Manager’s budget and the City’s COVID-19 emergency index, which is accumulating these costs which will be submitted to FEMA for reimbursement. At the midyear update scheduled for the Council meeting on February 9, 2021, staff will be reviewing this funding source for any additional appropriations necessary to ensure the availability of sufficient funds to meet these needs.

**Hygiene and Sanitation Plan**

The City and nonprofit provider MOVE Mountain View had already established handwashing stations, fixed or portable restrooms, drinking water, and garbage service for all safe parking lots in Mountain View as of March 2020. In addition, within 10 days of Shelter-in-Place orders going into effect, the City secured two portable Americans with Disabilities Act (ADA) restrooms and six hand-wash stations and placed them at high-need locations. In April, an additional six portable ADA restrooms and five hand-wash stations were placed across the City. Seven portable ADA restrooms and seven hand-wash stations are currently available for public use.

Table 4 summarizes the amount already expended and the total through the end of the Fiscal Year for the temporary hygiene and sanitation services.

**Table 4: Hygiene and Sanitation Services**

Amount for Services March to December 2020	Amount for Extended Services January to June 2021	Total
\$151,000	\$45,000	\$196,000

**Mobile Showers**

Due to continued COVID-19 concerns, the showers located at Hope’s Corner were temporarily closed as of June 2020 and remain closed at this time. The City was instrumental in securing additional mobile shower services from Dignity on Wheels

(DOW) at CSA, which started June 9. The City provided \$35,000 in funding to expand mobile shower services from the existing one 3-hour session per week to two 4-hour sessions per week. CSA continues to fund the regular services and has covered any gaps in funding.

Table 5 summarizes the amount already expended and the total through the end of the fiscal year for the expanded temporary mobile showers program.

**Table 5: Mobile Showers**

<b>Amount Expended from June to December 2020</b>	<b>Amount for Extension until June 2021</b>	<b>Total</b>
\$15,000	\$20,000	\$35,000
