**Park Restroom Guidelines Review**

The Parks and Recreation Commission recommends:

1. Modify slightly the existing guidelines for permanent traditional/standard restroom buildings in City parks as follows:
  - The park is a neighborhood or community park a minimum of three (3) acres in size.
  - The park provides extended-stay activities such as large barbecue areas, swimming, tennis, or athletic league play.
  - If a park is jointly owned and/or operated, both parties must agree on the restroom(s).
  - Restrooms meet design standards supportive of activity levels of the park (new).
2. Request staff to explore developing guidelines for single-stall restrooms such as “Portland Loo” restrooms in City facilities.
