Downtown Parking Strategy

The purpose of this Study Session is for the City Council to provide direction to staff on the Downtown Parking Strategy framework and options to address current and future parking demand in the downtown area.

This Study Session is limited to discussion of whether the Downtown Parking Strategy should include parking supply solutions generally. Specific options to increase parking supply, such as whether to construct a new parking structure or specific locations for a potential new parking structure, will not be discussed at this Study Session and will be scheduled for a future meeting.
