Mountain View, CA 94043

Letter of support for expansion of shoreline lot B

Dear City Council Members,

I am writing in recognition of the Mountain View City Council's partnership and commitment to the Safe Parking Program operated by MOVE Mountain View.

We recognize the growing need for safe parking services as the number of unhoused individuals in this area continues to increase. For many, a vehicle represents the last form of shelter before complete homelessness. Safe parking provides stability, safety, and dignity during a critical transition period.

MOVE Mountain View serves as the operator of this program, ensuring it is managed with care, accountability, and a clear focus on long-term housing outcomes. Through structured case management, connection to services, and a secure environment, participants are supported on a path toward permanent housing.

This program makes a measurable difference. To date, MOVE Mountain View has successfully placed 156 individuals into permanent housing, demonstrating the effectiveness of this model and its impact on long-term stability.

We appreciate the City Council for identifying safe parking as a necessary service in addressing homelessness in our community. Your partnership has been instrumental in allowing this program to serve individuals and families with compassion and measurable results.

We look forward to continuing to strengthen this relationship and expanding the program's reach in the years ahead.

Sincerely,

Amber Stime

Program Coordinator/ED
